EDUCATION

Mehran University of Engineering and Technology, Khairpur, Pakistan

Bachelor of Engineering in Software Engineering

CGPA: 3.8

August 2023 – Present

PROJECTS

DAMFlix – Movie Recommendation Web App (Personal Project)

- Developed a responsive movie recommendation web application using HTML, CSS, and JavaScript.
- Implemented search functionality to allow users to quickly find movies by name.
- Designed categorized movie sections (e.g., trending, popular, genres) for better content discovery.
- Integrated interactive UI features such as teaser previews to enhance user engagement.
- Technologies and Skills: HTML, CSS, JavaScript, Responsive Design, DOM Manipulation

Portfolio Website (Personal Project)

- Designed and developed a personal portfolio website to showcase projects, skills, and contact information.
- Technologies and Skills: HTML, CSS, JavaScript, Responsive Design
- Created a clean and responsive user interface using HTML, CSS, and JavaScript.
- Implemented smooth navigation and structured sections (About, Projects, Contact) for better user experience.
- Optimized layout for different screen sizes to ensure mobile-friendly design.

News Website with API Integration (Personal Project)

- Developed a dynamic news web application that fetches and displays real-time news using a public API.
- Implemented category-based news filtering (e.g., sports, technology, business) for better content organization.
- Added search functionality to allow users to find specific news articles.
- Used JavaScript to handle API requests and dynamically update content on the webpage.
- Designed a responsive and user-friendly interface for seamless browsing experience.
- Technologies and Skills: HTML, CSS, JavaScript, REST API Integration, JSON Handling
